

QUOTE SPECIFICATION SHEET

Custom Reference Material

Product Name

Custom Pesticide Mix 6797 100 ug/mL in Methanol

Product Code

DRE-Q60006797

Solvent

Methanol

Estimated Shelf Life

385 days

Storage Temp

≤ -10 °C

Quality Level

ISO 17034 Certified Reference Material

Packaging Type

2 mL Ampule, Amber Glass, 5 x 1.2 mL

Compound Name	CAS No.	Concentration (ug/mL)
abamectin	71751-41-2	100
acephate	30560-19-1	100
bifenthrin	82657-04-3	100
chlorpyrifos	2921-88-2	100
cypermethrin (mix of isomers)	52315-07-8	100
dichlorvos	62-73-7	100
Difenoconazole (mixture of isomers)	119446-68-3	100
dimethoate	60-51-5	100
ethoprophos (prophos)	13194-48-4	100
fenthion	55-38-9	100
fipronil	120068-37-3	100
isazophos	42509-80-8	100
isocarbophos	24353-61-5	100
pendimethalin	40487-42-1	100
prochloraz	67747-09-5	100
Propiconazol (mixture of isomers)	60207-90-1	100
pyraclostrobin	175013-18-0	100
pyridaben	96489-71-3	100
Tolfenpyrade	129558-76-5	100

<p>LGC Group 7290-B Investment Drive North Charleston, SC 29418 United States T +1 843 763 4884 F +1 866 509 5146 E dr.ehrenstorfer@lgcgroup.com</p>		<p>Our experienced chemists will manufacture your custom reference material as outlined above. In special cases, compatibility or solubility may necessitate a change in concentration/solvent, or a multi component solution be split into two or more solutions. The shelf life stated herein is an estimate based on available chemical knowledge and will be replaced by a confirmed expiration date provided by in-house stability testing of the final solution(s). We ensure that the gravimetric concentration will be within five percent of the nominal. Your custom-made reference material will be fully described in an accompanying Dr. Ehrenstorfer Certificate of Analysis.</p>
