

QUOTE SPECIFICATION SHEET

Custom Reference Material

Product Name

Custom Pesticide Mix 6801 100 ug/mL in Methanol

Product Code

DRE-Q60006801

Solvent

Methanol

Estimated Shelf Life

385 days

Storage Temp

≤ -10 °C

Quality Level

ISO 17025 Gravimetric Reference Material

Packaging Type

2 mL Ampule, Amber Glass, 5 x 1.2 mL

Compound Name	CAS No.	Concentration (ug/mL)
aldicarb	116-06-3	100
aldicarb sulfone	1646-88-4	100
aldicarb sulfoxide	1646-87-3	100
carbaryl	63-25-2	100
carbofuran	1563-66-2	100
fenobucarb	3766-81-2	100
3-hydroxycarbofuran	16655-82-6	100
isoprocarb	2631-40-5	100
methomyl	16752-77-5	100
metolcarb	1129-41-5	100
propoxur	114-26-1	100
2,3,5-trimethacarb	2655-15-4	100

Our experienced chemists will manufacture your custom reference material as outlined above. In special cases, compatibility or solubility may necessitate a change in concentration/solvent, or a multi component solution be split into two or more solutions. The shelf life stated herein is an estimate based on available chemical knowledge and will be replaced by a confirmed expiration date provided by in-house stability testing of the final solution(s). We ensure that the gravimetric concentration will be within five percent of the nominal. Your custom-made reference material will be fully described in an accompanying Dr. Ehrenstorfer Certificate of Analysis.
